PROFESSIONAL SUMMARY

Fourth-year Bachelor of Science in Information Technology student at De La Salle Lipa with experience building full-stack web applications independently and collaborating on mobile and web projects. Proficient in React, TypeScript, Node.js, Express.js, and PHP, with working knowledge of database integration, authentication, data validation, and state management. Seeking an IT internship to apply software development skills to practical technology projects.

TECHNICAL SKILLS

Programming Languages	JavaScript, TypeScript, Python, Java, C++, PHP, SQL
Web Technologies	React, Vite, HTML5, CSS3, Tailwind CSS
Frameworks & Libraries	React Native, Expo, Node.js, Express.js, FastAPI, TanStack Query, Zustand, Zod, Mongoose
Databases & Platforms	MySQL, PostgreSQL, SQLite, MongoDB, MongoDB Atlas, Supabase
Tools & Technologies	Git, GitHub, Postman, Visual Studio Code, Linux, UiPath, JWT, Vercel

PROJECT EXPERIENCE

Event Tracker | Full-Stack Web Application

July 2026 - October 2026

React, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Mongoose, JWT, TanStack Query, Zustand, Zod, Vercel

- Independently designed and developed a full-stack event management platform that allows users to create accounts, browse upcoming events, and manage event registrations.
- Built the front end using React, TypeScript, and Vite with Tailwind CSS for styling, while developing the back end with Node.js and Express.js, integrating MongoDB Atlas with Mongoose for data persistence, and implementing JWT-based authentication, TanStack Query for data fetching, Zustand for state management, and Zod for input validation.
- Delivered a fully functional application deployed on Vercel, allowing users to browse, register for, and manage events entirely online.

Auto Avenue Inventory Management System (IMS) | Web Application

May 2025 - June 2025

PHP, MySQL, RESTful Workflows

- Developed an automated inventory tracking and supplier portal for Auto Avenue using PHP, MySQL, and RESTful workflows.
- Implemented secure role-based user authentication, automated stock reorder thresholds, and report generation workflows for inventory operations across departments.
- Reduced inventory auditing time, improved stock movement transparency, and prevented stockout discrepancies across the organization.

PalengkeHub | Public Market Marketplace

March 2026 - October 2026

React Native, Expo, Supabase

- Collaborated with a project team to design the login interface and admin dashboard for a public market marketplace application focused on stall-level price visibility and product pre-ordering.
- Planned administrative dashboard functions and requirements, including the selection of relevant data points and chart types for monitoring system activity.
- Delivered interface designs and dashboard specifications that supported administrative monitoring and system management for the capstone project.

EDUCATION

De La Salle Lipa

Lipa City, Batangas

Bachelor of Science in Information Technology - July 2023 - Present
Major in System Development

CERTIFICATIONS & ACADEMIC ACHIEVEMENTS

- Cisco Networking Academy - Python Essentials 1 (April 2026)
- Cisco Networking Academy - Python Essentials 2 (October 2026)
- Dean's Lister (Third Honor) - First Semester, AY 2023-2024 (GPA: 3.3478)
- Dean's Lister (Third Honor) - First Semester, AY 2024-2025 (GPA: 3.4615)

LEADERSHIP & ACTIVITIES

Member, Junior Philippine Computer Society (JPCS) - De La Salle Lipa Chapter

2023 - Present

- Participated in IT workshops and seminars, assisting in event coordination and campus tech activities for the student community.
